This is an example entry form for entering an animal in BOTH the owned show and the bred & owned show AND an animal in just the owned show.

If you plan to show animals in ONLY owned or ONLY bred & owned you will answer NO to question 2 and answer zero for question 3. Just follow this how-to enter if you plan to have some of your animal shown in multiple shows.

Oaks Ellie 7012 is going to be shown in TWO shows. She is eligible for Bred & Owned AND Owned. She must have TWO entries completed with her information as well as two entries above in question one "How many entries will you have?"

Oaks Poptart 8016 is a ShorthornPlus that is not eligible for two shows. She has her one entry to the left with her information as well as 1 entry above in question one "How many entries will you have?"

You have TWO animals that are being exhibited but THREE entries. On question three, "If yes, how many animals will be entered into both shows" the answer is one, Ellie is the only animal showing in multiple. This makes sure you aren't double-charged bedding.
